

# Manufacturing & Technology

## Business Roundtable Discussion

You won't want to miss this Discussion on . . . . .

### Improving Workforce Development for YOU

The topics we will cover ...

- Determining critical skill sets your employees need to be successful
- Addressing critical skills needed for success and current skills gaps in your workforce
- Identifying new training opportunities and training gaps in our community
- What barriers keep applicants from getting hired at your business
- How the Manufacturing & Tech Workforce Ecosystem Development Program can help build a more robust workforce that meets your needs
- Using the information you share to identify strategies that enhance Workforce Development for your business
- Sharing the information discussed today with training providers to ensure training programs are effective

### Manufacturing & Tech Workforce Ecosystem Development Program

The Manufacturing & Tech Workforce Ecosystem Development Program is designed to build and enhance the talent pipeline. By providing targeted outreach to businesses, we can assess what skill gaps exist in the workforce currently. Then, with that knowledge at hand, we will collaborate with training providers to place participants in training that is already offered or assist with creating training that is in demand. We will then recruit job seekers for these industry driven training programs in the Manufacturing & Technology Sectors. We can provide supportive assistance to participants as well as wrap around services which will allow them to successfully complete training programs and obtain employment. We want to help your business prepare for the future and boost our community's economy. Please join us as we tackle these issues together.

**PLEASE RSVP NO LATER THAN TUESDAY FEBRUARY 25, 2025!**

Tuesday, March 4, 2025

Southern Chautauqua Federal Credit Union  
Training Center  
110 Mall Blvd  
Lakewood, NY 14750
